1. Great class, would refer it to others. Bruce attempts to help others understand sociology best to his ability.
2. I have loved this class and the instruction I have gotten here. Bruce is a great teacher, I respect his knowledge and his teaching style and have already recommended him to others wanting to take sociology.
3. Bruce is a great instructor. His class is the only class beside phys. Ed. that I enjoy going too.
4. Great Course but I think it would be more effective if we could access notes prior to class. Less is heard and absorbed when copying notes off projector. We could follow along better and add additional information to printed out notes.
5. Bruce is an amazing teacher. He is an incredible story teller and that makes his class so interesting. I also appreciate all the benefits of his web site.
6. I really enjoyed this class, I never wanted to miss it because every class I would learn something new. I feel like I'm more aware of the people around me and I notice I'm getting more observant of people's behaviours. Any who, great class I would definitely recommend it to others!
7. Bruce clearly relates the course material to modern issues making the concepts easier to understand. The class is quite challenging and really makes you think about our world.
8. I really enjoyed this class. I even didn't mind your tests. They are fair. Your subject material is very interesting. I liked how communicated it by power point, and I enjoyed the stories.
9. I don't like the testing methods given. Maybe if we were given quizzes in the same format to allow us to practice the written part. However. I really enjoyed the course content. Why did we have to by the text book. I feel the information need from the text book could have been handed out in handout form.
10. I actually wanted to come to class. Although I may not agree with some of the content. Bruce is effectively able to demonstrate his reasons for presenting the material the way he does. A very informative and engaging learning style. There isn't anything in the course that I feel needs to be changed. I really enjoyed it.
11. I think Bruce is a great teacher. I learned more in this one class than all the classes I have taken. He presented material in a way that was easy to understand & interesting. This class is what I had thought school would be like. I was excited to come to class & learn more. I would definitely take another class with Bruce. I honestly think he is the best teacher I have ever had. I actually feel like I'm leaving this class with more knowledge & with a new passion.
12. This was the best class EVER! I actually wanted to come to class and was interested in it. The only thing was the reading tests. They are worth too much. Also for "you" choose if you answer both I think the better mark should be taken. But other than the reading tests. I loved being in the class.
13. The instructor himself was great, and the material is also well taught. My only suggestion for the class itself would be to incorporate more student involvement. Such as, projects or researches. This may help to teach those students who are more active learners.
14. I think Bruce teaches an excellent course. He gets everyone interested and involved. My only problem with the class is his method for the midterm & final exam. Memorizing that many essays in a week on top of other courses exams, is a little too much pressure. My suggestion to keep this method but give students a little less pressure would be to give at least 2 weeks to write & memorize questions, or try another method. I enjoyed your class though.
15. This is nothing much you should change about the way you teach this course. You have an excellent way of teaching and the course content and assessments such as exams and reading tests are helpful. The reading tests are especially helpful because they keep students on track. Since we know that we

- are being graded for each reading test we some what forcefully read them but in the end they help us in the course and for our own intellectual growth. Keep up the good work.
16. At the beginning of the semester he wasn't as helpful on letting us know what we could be tested on except well everything we learned. Then about half way through the course he would add in that certain things could be testable and how a question about that topic would be asked. He is also an excellent teacher and all his examples he gives in class is wonderful. It help to put what he is saying into an image which makes it a lot easier to remember.
  17. Bruce is an incredible instructor. His lectures are captivating and he is an amazing story teller (stories are of course relevant to course material). I have learned soo much in this class. He made me feel motivated and inspired. He seems passionate about both sociology and teaching. This course has been a great experience. If I could give any suggestions it would be to present the second on gender stratification in a more helpful way for women. I know that the truth is the truth, but there has got to be a way to shed some light on this Area. But overall → Awesome Instruction!
  18. Bruce is a very passionate and knowledgeable instructor. However, Bruces passion for his work can create an intimidating atmosphere in which students do not feel comfortable contributing in class discussions. I appreciate Bruce's high-expectations for his students but I do believe that he needs to provide an environment in which students feel empowered to meet his demands. A little positive feed-back from time to time would be nice.
  19. I really enjoyed the class, there was good information given, along with good class discussions. I found your organization of time poorly as you always seemed to go over the time. You also seemed a little arogant about the issues discussed after the midterm. Also I found there was no room to slip up on anything, even the weekly reading quizzes. The weight of each test was a lot. which causes a lot of stress with people who have a full course load. You did make the class fun though with your stories & expressions.
  20. I found Bruce to be an awesome teacher. Everything in the course was interesting and I feel he was always able to keep the student's attention. The way he presents the course material is amusing and he challenges us to make connections between other material and our lives. I found this to really help me remember course material effectively. Bruce is an amazing teacher and I would tell anyone to take his class.
  21. From the first day of attending Bruce's class, I knew that it would be the only one of my four classes this semester that I would enjoy. In his teaching, Bruce is enthusiastic about the material, and presents it to us in an interesting way. Although the reading tests were somewhat a pain, I still felt that they were significant to the course, and I am glad that we were required to do them. I never once found myself bored in class; Bruce was always always presenting even the dullest of material in a way that I couldn't help but pay attention to. My favorite part of this class was when he would turn the monitor off because I knew then we would get to hear one of his stories.. whatta guy!!
  22. Bruce is an excellent instructor w/ obvious understanding of the subject. His teaching style is effective in aiding learning w/ dynamic use of examples, stories and scenerios. Class discussions show openness, respect, and assist learning. Evaluation is extremely difficult, requiring perfect recall or memorization to acquire good grades. I would like a chance to show my understanding of the material through something other than direct recall in the form of essay questions on major exams. Perhaps multiple choice questions to scenerios would be beneficial? ie - this is an example of \_\_\_\_\_ (concept).
