1. • He really prepared his students for higher level courses & graduate school. • Very approachable & willing to help whenever & wherever he can • content of course is very interesting especially how he throws his own stories into it • The term paper was an awesome project & he walked us through set by step so we could construct a paper we are proud of
2. Although Bruce expects alot from us he is a excellent teacher. He takes time out of his day to meet with you and help you with any questions you might have. In the long run I feel like Bruce has improved my writing skills and confidence with writing a term paper. I do feel that this class is entirely focused on the term paper. Thanks to Bruce for taking the time to help & for being fair in his evaluations of me.
3. I really enjoy this class and Bruce keeps the lectures interesting and applicable to our lives. I like how we are taught how to write a paper well in this class.
4. Without a doubt, your lectures are the most interesting of any class or proffesor I have had. The class length goes by almost too quickly. Each lecture is captivating from start to finish. Often left class with something to pondor or discuss with friends later. Well done, thank you.
5. Bruce is an awesome prof. He might mark crazy hard, but his marks makes you want to work harder and do better in other assignments/papers. I would recommend this class to anyone who's not using it as a GPA booster. Other than that, Bruce, keep up the great work!
6. Overall a very good teacher. The course is hard and requires a lot of work. He always makes himself available to student, which I really appreciate. However, the midterm was hard and I don't feel it really related to the course material.
7. Bruce's classes are always interactive, engaging and powerful. His teaching style is unique and very effective. Other classes at the college would benefit from adopting some of Bruce's techniques. I feel as though his assesment is fair and competitive. I recommend any of his classes to other students.
8. Very enjoyable class, well thought out and presented. Perhaps assignments could be relaxed a little (not so long, harsh penalties removed, easier marking). In an overloaded college career marks mean everything, so it's kind of unfair to be punished with one small mishap...
9. It seems like you have to get instructions for course assignments after hours of class or not at all. Ravelli asks for such specifics that it is difficult for him to adequetly give instructions. I don't understand why I've had more work in this class than all my other 4 courses combined. However, class is really good and interesting. Everyone gets involved because it is hard not to.
10. – Bruce is an excellent communicator, he engages with his class through discussion, Q & A, & loads of media sources. Which are very helpful - Bruce's Website – Ravelli.ca not only clear communicates deadlines & is continually updated, but also provides helpful links for further scholastic gain. – I have taken bruce's intro, and now this class, & hopefully will get the priviledge to take another class (senior level) again. – I would recommend him to any student. ☺
11. – Bruce makes learning fun! - I think the skills he's teaching us (ex. Term paper writting) will be useful additions to our after school skill sets. – I am worried about the final paper. We don't revisit too many lessons once we finish them or apply the learned info through quizzes. This may affect retention. – I learn better through his use of everyday examples that we all can relate and apply the lessons too.
12. Bruce makes every class engaging and informative. This is my last class of the day, and I'm dead tired when I get here, but as soon as we start I'm alert and refreshed. Bruce is a smart guy and tries his best to pass on important tools (like term paper writing) to better us as we go on in our academic careers. Take-home midterms should not be a part of this class he expects too much, and it's stressful (more so than regular mid-terms). Bruce has alot of interesting ideas and facts and is an approachable funny guy. He knows his stuff and I would recommend him to others.

13. I like the lay out of assignments for the term paper, it causes the student to get working/thinking ahead. Definetley keep the rough draft portion it forces the student to work ahead and improve without being completely stressful trying to get the paper done the night before, (for example)
14. Bruce is the best teacher I have ever had. What makes him the best is his charisma, which then leads him to be more as a role model. People knock him for being a hard marker, and anyone who does not do well in his class probably won't say much good about him, but being the overall A student I am, in bruce's world, I just make average. Although school makes it all about the grades, Bruce pushes you to the limit, thereby strengthing & expanding one's potential. I myself already see the benefit, in real life, because Bruce has pushed me. This course could use a little more jazz or fun to it in terms of projects. Maybe less emphasis on paper and more on Fun stuff!
15. An excellent learning experience. Bruce has high expectations, in particular for the term paper, however the experience will benefit me in the future. Bruce communicates his expectations well and I appreciate his availability for help outside of class. Although it was a tough course, I would recommend the class/teacher to someone else. I always look forward to class!
16. This course was very interesting & challenging. It was a very tough course to get through, but I was able to challenge myself and get through it with a great deal of work. Your teaching is awsome, and i will recommend this course to others in the future. Thanks (*student's name*)
17. – it was helpful doing the article summaries before we had to do a draft of the term paper
18. Although Bruce is a animated and interesting lecturer and the general course content is covered extensively I feel that Bruce values regurgitation over application in his learning outcomes. I have achieved good grades in this class but have effectively learned NOTHING. Bruce comes off as arrogant and Pedantic which I suppose is fine, however, it fosters a feeling of gross ineptitude amongst many of the students I have talked to in the class. I would recomend Bruce to students who are willing to work "Smart not hard" to achieve a grade. But I would definatley NOT reccomend him to students who want to learn and apply their new found knowledge.
19. I've never been in a class before where I could not write a paper, based on instructions given in class and on assignment sheets, that would not receive a decent grade. It really seems that the only way to do decent on our assignments in this class is to go and see you. Your office hours are absolutely appreciated but I'm curious as to why this is the first time I've ever absolutely needed to use office hours in order to do well on assignments.
20. Bruce, you need to teach more classes because I've taken all of the ones you teach! I found this class very interesting and particularly enjoyed the field trips ☺ I recommend taking students to the T wing again for another trip – it was fun and I enjoyed learning what students in communication studies thought – very insightful. I also LOVE the text. I don't think you need to justify having students purchase a text by making us use it for the mid-term – it is interesting all on its own. Great Class! ☺
