1. Harsh marker but excellent prof.
2. I feel my learning was challenged to the level university should challenge student. I wish more classes were taught the style you teach. I would take more classes in sociology now that you have shown me how interesting the subjects can be.
3. Bruce is a great instructor. He makes the class entertaining and he creates a great learning opportunity. He gives students the resources and opportunity to do well in the course.
4. •Makes class enjoyable to sit through. •Hard topics to remember but he uses good examples. •Made me really like sociology.
5. Bruce lectures in an informative and enjoyable manner. I feel like I learn a lot in his class and I enjoy attending. I had heard he was notorious for convincing people to switch to Sociology and I feel like this is a testament to his teaching. Would definitely take a class with you again. 😊
6. Bruce is a very smart man with good teaching skills such as good examples and using humor. He is a tough marker though, and sometimes what he's expecting is a bit unclear. He wants us to go deeper in our answers yet we get penalized for too long answers. Also, he needs a better hair cut.
7. Instructor makes class educational and relatable. Would recommend him.
8. Bruce is an amazing professor and always relates complex concepts to examples easily understood. He really is reachable and motivates students to work hard. His lectures are unbelievably interesting and I have and will not miss a single one. He shows great passion in his work and it shows that he loves what he does and the impact he has on his class. Bruce has changed my overall outlook from sociological perspective and I think that should be any teacher's goal. Best professor I have ever had!
9. This is the first class I've taken that has really motivated me to study a lot harder than I used to. Definitely my favorite class I've taken at MRU so far.
10. I really enjoyed your classes, and I learned a lot. I think your tests & exams are very fair. You expect a lot but you also prepare us for everything you're going to ask. Thank you. 😊
11. –Nice guy. – He might be sexist though, probably not.
12. Amazing teaching style, clearly communicates the information in ways which make you change your outlook on the world and issues. However, marking is incredibly tough and honestly I feel like I know more than my marks reflect.
13. I really enjoyed coming to these classes and being taught material in a new and interesting way. The stories and examples that Bruce tells help with learning the concepts and theories of that lesson. They stick with me which is very helpful when it comes to tests. I also appreciate the different ways and options that Bruce gives us in order to get the most of our marks. Bruce was a new teacher for me and I enjoyed taking this class and learning from him.
14. Very direct and to the point but even though you are aware of the comments you make in class (most times to prove a point) some I felt were needed or overkill. The use of terms that have been discredited in fields such as mental retardation and saying these people are stupid is not okay. Honesty, the only thing that has bothered me in this course. Developmental disability or intellectual disability and the term 'stupid' just adds to the negative stereotype.
15. There should be more instructors like you. Not only do you make class interesting, your teaching style motivates me to read ahead and ask questions about the subject. Your way of instructing makes learning fun, engaging and entertaining. It keeps me wanting to show up and that being said I have a

great interest in sociology. I would do better in my university career if there were more instructors who were as knowledgeable, organized and passionate.

16. I think Bruce is an awesome teacher. He challenges you to think outside the box and to stop being a cheerful robot. He tells things like they are where most teachers do the opposite. He encourages us to think in ways that we wouldn't normally which is a nice change.
17. VERY smart about the learning material and has a very effective way of showing relations and explaining the material(stories, videos, examples, real life situations). His enthusiasm aids my learning and my desire to participate. Sometimes is condescending to particular social groups when teaching (ex: women) but it appears to be his method of delivering his point. I would recommend him to my peers.
