1. I really didn't like how we had to know his research for the final. He could have just told us about the research he did. Other than that he was an okay teacher. The exams were a little hard $\frac{1}{4}$ he picks, and $\frac{4}{5}$ questions from lecture.
2. Change format for the mid term, and final. (Part A—Research 5 different questions when only one is asked). Because I don't learn the material I just memorize it.
3. I understand the need for student participation so may be for encouragement you could make it worth marks in the future.
4. Bruce is awesome. His class is almost always enjoyable. It's nice to have a class with him outside all my math courses, it's very refreshing. He seems to really care about his students. Best of all, his stories!
5. Bruce is a very intelligent and interesting instructor that finds clever ways to relate information. It is just too bad that no one in our section would add to class discussions.
6. Impressive teaching effort!
7. Not Down with harried exams.
8. Bruce, you are one of the best teachers I have had. I love how you teach your class, I would suggest less emphasis in terms of marking on the reading tests however. I do not believe that they accurately represent how a student understands concepts, rather they represent how much time a student put into studying the chapters. Other than the C.W. Mills article I have not benefited from the reading tests intellectually.
9. This has easily been the most interesting and thought provoking class I have ever taken. I looked forward to it each day. Fantastic job.
10. The class is very open for discussion. Bruce is always very well organized and has very good teaching technique that is very well adaptable for any student. His instruction is very enjoyable and his stories are very interesting.
11. Bruce is an amazing lecturer because he is very interesting to listen to. I have learned a lot about the society around me through him because he uses great stories, good examples and teaches the course in ways that help me learn.
12. The course was good, Bruce is the best instructor I've had in my two years (18 courses). Reading Test were hard, put more emphasis on them and how much they count for your grade.
13. Instructor had very good personal examples that related to the course material which added to his teaching style. Found the course very interesting, not only because of the information and material, but also because of the instructor. Very enthusiastic and knowledgeable instructor. Overall very enjoyable class. I will plan to take higher level sociology classes because of this one.
14. The exams are done in a way that is easy to understand and even if you aren't the strongest writer you are still marked fair.
15. Although somewhat interesting at time I feel like this class was a waste of my time. I can not understand how this can be considered a science or why someone would major in it.
16. Bruce was very effective when he would create/act out scenarios that would help us to remember certain points. Even though our class participation was low, I could not suggest how to change that. Set up for final Exams works well. Wicked instructor, really enjoyed the class. I didn't know what I was supposed to get out of the reader/or reading tests.
17. I don't know if there have been concerns in the past with posting lecture notes ahead time instead of after class, but I would appreciate having them prior to class. It would help in following along as well as engaging in discussion and also personalizing notes.
18. Bruce, you were absolutely incredible. I'm sorry that not many other people actively participated but I don't believe that this was your fault. You wonderfully taught the material and made sure it was

relevant beyond the course. You obviously inspire students to learn for themselves (and about themselves). Bruce, you surely fulfilled the promise of sociology. Thank you so very much.

19. Bruce's lectures were very well represented. He used effective examples that aided my learning and I think that I've really learned a lot from this class. One suggestion is that I think he over emphasized the importance of grammar on the written components (more so than other teachers).
20. This class was definitely the best class I have had in college yet. The course is tough but very fair when it comes to marking the work. This is definitely a class I would recommend to others. It is the only class I could not fall asleep in even if I tried. Just a class always look forward to every day it came.
21. Bruce I think your a great teacher & seem to be quiet knowledgable when it comes to the subject. I don't appreciate you walking out of a class. I thought that was totally unncesiary & I was very frustrated by that. I can understand why you thought your actions were justified but under no circumstances should a teacher just up & leave because a class isn't talking. You are a wonderful teacher & thank you for your time.☺
22. I always enjoyed going to class because everything taught was always in an enjoyable manner. We always got a chance to join in class discussions and class was always fun. Bruce was able to dictate the course information so that it was easily understandable. Bruce was an EXCELLENT teacher as he knows exactly what he is teaching while maintang a fun atmosphere that makes you eager to attend his classes.
